Press Release

ELINCHROM EMBARKS ON A NEW ADVENTURE WITH
THE LAUNCH OF THE LED 100 C

February 26th 2025, Renens, Switzerland

Elinchrom, a leader in professional lighting solutions for over 60 years, proudly introduces the LED 100 C, its first-ever continuous light. Designed to meet the evolving needs of photographers, videographers, and content creators, the LED 100 C delivers professional-grade performance in a compact and portable package.

INTRODUCING THE ELINCHROM LED 100 C

Simon Whittle, CEO of Elinchrom, states,

"The launch of the LED 100 C is an exciting new adventure for Elinchrom. For decades, we have been at the forefront of flash innovation, and now, we are embracing continuous lighting to support the evolving needs of today's creatives. This is just the beginning of a new chapter, and we can't wait to see how photographers and content creators integrate the LED 100 C into their workflows."

THE PERFECT COMPANION FOR PHOTOGRAPHERS AND CONTENT CREATORS

The LED 100 C is the perfect continuous light accessory for Elinchrom and Profoto users who need an LED solution that integrates effortlessly into their workflow.

Whether used on its own or in combination with flash, it expands creative possibilities, making it an essential tool for professionals and aspiring creators alike.

TRYING OUT THE ELINCHROM LED 100 C

Anthony Passant,
*"I never thought we could blend power
and creativity in such a compact unit!
It's a blessing for those, like me, who mix
photography and video!"*

*"We chose to collaborate with Anthony Passant
because he perfectly represents the modern
photographer's reality—balancing both still and video
content creation. We knew that the LED 100 C, with
its set of features, would integrate seamlessly into
his existing setups. I am confident that many photographers
will see it as a valuable addition to their toolkit"
adds Simon Whittle.*

⊞ ELINCHROM LED 100 C
KEY FEATURES

- **Wide Color Temperature Range**
  Adjustable from 2700K to 6500K in 100K steps for precise control
  over warm, neutral, and cool lighting.

- **Creative RGB Control**
  50W of fully adjustable RGB in 1° increments on the HSV color wheel,
  giving creators complete freedom over color choices.

- **Dynamic Special Effects**
  15 built-in FX modes, including Lightning, Fireworks, and Candle,
  to bring cinematic creativity to any project.

- **Versatile Light Shaper Compatibility**
  Works seamlessly with Elinchrom OCF, Elinchrom full mount, and most
  Profoto-mount light shapers, providing unmatched flexibility.

- **Built-in Long-Lasting Battery**
  A 72Wh battery provides up to 40 minutes of full-power use and supports 100W
  USB-C Power Delivery, ensuring continuous operation while charging.

- **Lightweight and Portable**
  Weighing just 0.91 kg (2.01 lbs.), it is designed for on-the-go creators
  without sacrificing performance.

- **Effortless Control**
  Features an intuitive touchscreen and Bluetooth connectivity
  (via the Elinchrom App, coming early spring 2025) for seamless remote operation.

- **Flicker-Free Operation**
  Optimized for high-frame-rate video recording, ensuring smooth
  and stable lighting for professional productions.

ABOUT ELINCHROM

Founded in 1962, Elinchrom has been a pioneer in professional lighting solutions for over six decades. Based in Renens, Switzerland, Elinchrom continues to push the boundaries of innovation, helping photographers and creators worldwide shape light with precision and creativity.

ABOUT ANTHONY PASSANT

Anthony Passant has been a French portrait photographer for over a decade and an Elinchrom user since the beginning of his career. As brand ambassadors, he has been involved in the launch of several other products, such as the ELB 500, Elinchrom ONE and THREE. A passionate and self-taught photographer, he embraced flash photography for its creative potential and its ability to transform a room, enhance a face, or set a specific mood.
